

ZUMI'S Café open house *Thanks for making it great!*

A brief review:

The Open House last Wed, Thurs, and Fri was a lot of fun! Many customers, family, friends, and business affiliates from near and far came to celebrate our newly renovated space, as we celebrated the great community we have supporting us and our vision at every step! Thankyou!

We were very fortunate to have several outstanding local musicians volunteer to entertain; they did a great job creating a festive atmosphere each night!!! Orville Giddings opened the three day event Wednesday; some people were dancing along as they sipped and nibbled their samples. Wed night was our biggest showing of guests, with perhaps 150 people in total over two hours!

That night, we were also happy to host a representative from OXFAM to share information about Fair Trade Coffee. Thursday was a bit more mellow in terms attendance, (but no less exciting for us) and those who were here got to enjoy the beautiful instrumental guitar of Erin Burk-Morin. Our final night,

Friday, picked up again as guests enjoyed the dynamic music of "Little Women," a string quartet from Ipswich Highschool that was very impressive and lively! In total, over 300 guests came through the cafe over the three nights, and we now feel more inspired than ever!

Our scrapbook and photos from the renovations will be at the café for you to peruse if you were not able to do so at the open house.
